#### CRESCO Objectives

CRESCO aims to cultivate and produce huge quantitative of Algae for Aquaculture Industry for use as Feed and Nutrition agent. It aims for Mass production of Spirulina and value added products with an initial Target of 1Ton per month. Gradually it aims to develop large scale Algae ponds and be one of the largest producer of Spirulina – both for domestic consumption and also for International exports.

#### CRESCO and MICROALGAE Production

Cresco aims to produce large quantities of Algae and Microalgae. This would encompass production of economically important algal species like *Spirulina sp*, *Chlorella sp*, *Dunaliella sp*, *Hematococcus sp*, *Nanochloropsis sp*, *Diatoms*, etc. These are highly useful in the Aquaculture industry as Fish Nutrition.

#### CRESCO ALGAE FORT
