CRESCO Objectives

CRESCO aims to cultivate and produce huge quantitative of Algae for Aquaculture Industry for use as Feed and Nutrition agent. It aims for Mass production of Spirulina and value added products with an initial Target of 1Ton per month. Gradually it aims to develop large scale Algae ponds and be one of the largest producer of Spirulina – both for domestic consumption and also for International exports.

CRESCO and MICROALGAE Production

Cresco aims to produce large quantities of Algae and Microalgae. This would encompass production of economically important algal species like *Spirulina sp*, *Chlorella sp*, *Dunaliella sp*, *Hematococcus sp*, *Nanochloropsis sp*, *Diatoms*, etc. These are highly useful in the Aquaculture industry as Fish Nutrition.

**WORLD
SEAFOOD
CONGRESS
2026**

Sustainable Solutions for Inclusive Growth -

Building a safer, fair and resilient global seafood trade
with the technical cooperation of:

UNITED NATIONS
INDUSTRIAL DEVELOPMENT ORGANIZATION

Food and Agriculture
Organization of the
United Nations

The internationally acclaimed World Seafood Congress brings together global leaders of the seafood industry and the latest in seafood innovation and technologies under one roof. The World Seafood Congress is organised by the International Association of Fish Inspectors (IAFI), an international NGO recognised by the United Nations.

Countries such as USA, Canada, UK, Iceland, Malaysia & Portugal have had the privilege of hosting this unique congress. In the year 2026, the World Seafood Congress will come to India for the first time and PDA Ventures Private Limited a Bangalore based Professional Trade Show & Conference organising company has been chosen to host the WORLD SEAFOOD CONGRESS 2026 in India.

The World Seafood Congress 2026 will offer scope for deliberations on the future of seafood and the health of the world's oceans in addition to creating awareness and introducing sound practices in a range of inspections approaches, sustainability and trade activities of relevance to the International Seafood Industry and the IAFI network.
